Paragraph 5a

25X1 [] At what stage will the allocation be made? How will the
total allocation of 250 be divided? Can it be increased?

25X1 [] Slots would be allocated on the basis of capability to
obligate.

25X1 [] I understand.

If an increase is desired, then we go back and amend it.

If the cost goes above 250, it must be taken out of someone's hide;
that is the significance of the 250.

25X1 [] The Director of Personnel hoped that we would not reach
the 50 spaces in the first year. We will have to make ground rules for
the establishment of a unit. This can be settled in the Personnel Annex.

Recruiting is to be done in two stages; in the field and in
headquarters.

25X1 [] It is okay to get the reservists signed up in the field.

Question on the 15th line on page 3, the word "indefinite." [He
advocated a term appointment.]

Paragraph 5b through 5f

TASK FORCE: Okay.

Paragraphs 6a and 6b

25X1 [] Wouldn't it be wise for friends and business associates
not to be knowledgeable in all cases? It would be good to keep it
quiet, but not cloak and dagger. This could be done in the briefing
of the reservists.

**SUBJECT: Abstract of Remarks at the Civilian Reserve Task Force Meeting
Held on 5 March 1957**

Paragraph 6c

"Non-sensitive" must be deleted.

Yes, because DD/P may be included in this group.

Paragraph 6d

This isn't clear to me. There are several risks as I see it. The Congressional risk, and the risk at time of call-up, etc.

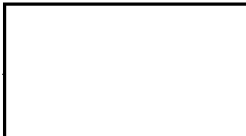

It would be good to make specific naming of risks.

We will work this over.

There is a risk to  if used as a

training area.

No risk because these people will be cleared.

No problem.

Paragraph 6e

If you use a time limit, then there is no injury to personal pride and relationships if separation becomes necessary. We should make further study of this personnel disposal.

Can't this be handled in a debriefing?

There is no problem because there is no personal security (financially speaking) involved in the break.

Could we have a show of hands to indicate a sentiment on indefinite versus term appointment.

Term of appointment based on quadrennial physical.

Open ended.

No opinion.

You know how I feel, but would like to consider further.

Yes and no.

25X1

[REDACTED]

Yes and No.

Now, this show of hands will not be a vote that is

added up and the highest opinion taken.

Paragraph 6f

25X1

[REDACTED]

These reservists that we select, we don't just want them from a large community because of the fact that their cities may be target areas and we couldn't find them after an attack.

Paragraph 7a

25X1

[REDACTED]

Add, "Agency reserve activities will be fully coordinated so that there is no duplication."

Paragraph 7b

TASK FORCE: Okay.

Paragraph 7c

Paragraph 8a

TASK FORCE: Okay.

Paragraph 8b

25X1 [] Replace that paragraph with either "Not required since activities will be carried out through the Agency regulations" or "Not applicable."

Paragraph 8c

25X1 [] Add, D/Pers will make annual report, statistical reports, and each unit will make a unit report.

Paragraph 9a

25X1 [] Okay.

Paragraph 9b

25X1 [] Suggest rewrite of last sentence.
Suggested rewrite, "This request was deleted in subsequent Bureau of the Budget hearings with the understanding that the program would be re-evaluated and forwarded as a project. If approved, the project will be included in the operating budget submitted for fiscal year 1958."

Paragraph 9c through 9f

TASK FORCE: Okay.

Paragraph 9g

25X1 [] Has consideration been given to pay for the reservists for their two weeks duty that he will miss from his regular job?

25X1 [] Will that be a problem to you, []

I don't know whether the employers will let him go.

25X1

[] We're not under any obligation to pay him.

 Their vacations will be spread out and cause difficulty in training. If you could get the employees to try and come in groups, it would be better.

Do you think the employers would cooperate on this matter?

25X1

[] Yes, we could go to the employer about these people.

 I take a dim view of us making an agreement with the employee and the employer. Let's leave it up to the employee and if he can't do it, it's too bad.

25X1

[] Notice that there is no provision for drill pay. Is it reasonable to expect them to participate without pay?

25X1

[] It depends on what will be accomplished at these monthly meetings. Unless you can provide cryptographing or rug hooking for cryptographers, then there is no sense in the meetings.

25X1

[] There may be security risks in mixing these people at drill meetings for we have no control over them.

25X1

[] We must have some contact with them because if there is no contact then it's no good. If there aren't monthly meetings, there should be monthly bulletins.

Paragraph 10a

TASK FORCE: Okay.

Paragraph 10b

25X1

[] The views of the Director of Training are that OTR would need more people for purposes of training these reservists
